U.S. AGRICULTURAL MARKETING DELEGATION

A delegation of U.S. Marketing leaders, organized through People To People International, is planning to visit Poland, Hungary and the USSR, June 3-18, 1986. This delegation is meant to introduce comparative agricultural production and marketing systems in Eastern Europe, the trip stresses counterpart meetings and agricultural site visits.

Registration closes the first week in April, 1986. For further information immediately contact:

Richard Vogen
Illinios Department of Agriculture
P.O. Box 4906
Springfield, Illinios 62708
(217) 782-6675

TECHNICAL OFFICE

Notice of Foreign Proposals Concerning Standards in Agriculture. As required of all signatories to the GATT Standards Code, the following notifications of foreign proposed standards-related rules have been provided for the information and comment of interested agencies and firms. The Technical Office invites inquiries from anyone who believes that any of the proposed regulations notified under this heading could cause a trade problem. From time to time we also receive information through our embassies in foreign countries, as is the case this week. Request for copies or questions can be referred to Carolyn Fillmore Wilson, USDA Technical Office, Building 1072 BARC - East, Beltsville, MD. 20705; or telephone (301) 344-2651. After reviewing a particular proposal, anyone interested in commenting on it should include the TBT Notification Number in their communication.

Canada - TBT Notification 86.28 The Canadian Department of National Health and Welfare has proposed an amendment (product covered - cured side bacon) to the Food and Drug Regulations. The proposed amendment will reduce the permitted maximum levels of use of potassium and/or sodium nitrite or a combination of both from 150 ppm to 120 ppm in cured side bacon. The objective and rationale for the proposal is health protection. Final date for comments on the proposal is August 8, 1986.

Canada - TBT Notification 86.36 The Canadian Department of National Health and Welfare has proposed an amendment (product covered - yeast food) to the Food and Drug Regulations which would revoke the use of urea as a permitted yeast food. The objective and rationale for the proposal is health protection. Final date for comments on the proposal is April 23, 1986.

Marketing Announcements

Marketing briefs are periodically prepared by the Agricultural Trade Offices. They serve as short overviews of individual commodity markets. The guides are designed for trade visitors. The most recent marketing briefs available are as follows:

Country	Market Briefs by Subject

FAS Circulars: Market Information For Agricultural Exporters

As an agricultural exporter, you need timely, reliable information on changing consumer preferences, needs of foreign buyers, and the supply and demand situation in countries around the world.

The Foreign Agricultural Service can provide that information in its commodity circulars.

World agricultural information and updates on special FAS export services for the food and agricultural trade all are available in these periodic circulars.

For a sample copy of these reports—which can supply you with the information you need to make sound business decisions—check the box indicated, fill out the address form and mail it today.

To subscribe: Indicate which publications you want. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted. NO REFUNDS CAN BE MADE.
